

Andrea James  
1<sup>st</sup> District

\*\*\*\*\*

1. **Are you in support of, or in opposition to, continuing funding for the Purchase of Development Rights program? Why do you support or oppose funding for this program?**

- I am in support of continued funding of PDR. I believe in the preservation of the green space and I believe this program can help the 1<sup>st</sup> district economically.

2. **Do you support or oppose tax breaks and/or other incentives for infill-redevelopment projects?**

- I support tax breaks.

3. **Do you feel that a higher priority should be placed on addressing and solving the sanitary sewer, storm water and water quality problems in Fayette County before there is any further expansion of development beyond the current urban services area? Why or Why not?**

- Yes to avoid higher costs for repair in the future and to help ease the burden this causes on residents currently.

4. **Fayette County agri-business and agri-tourism generate over \$3 billion dollars for the regional economy each year. Do you support these industries? If so, how will you promote agribusiness and agri-tourism if elected to office?**

- Yes. I will orient myself and my constituents on these programs and their benefits. I would like to see some of the underemployed and unemployed 1<sup>st</sup> district residents trained in some of the jobs agribusiness and agritourism for a more vested interest.

5. **Fayette County currently has enough vacant land within the urban services area to support nine years of residential growth. Will you propose to use this available land to provide affordable housing, accessible transportation, and amenities for our growing community? If so, how?**

- Yes. I would first need to assess the degree of residential growth the immediate community would like to see and encourage conversation between developers, residents, and the Urban County Government.
