

K.C. Crosbie
7th District

1. **Are you in support of, or in opposition to, continuing funding for the Purchase of Development Rights program? Why do you support or oppose funding for this program?**

- Yes. The Purchase of Development Rights program has been a success in preserving and protecting our farmland.

2. **Do you support or oppose tax breaks and/or other incentives for infill-redevelopment projects?**

- Yes. In recent years, we have seen significant progress in redevelopment, particularly in our downtown/urban areas. To the extent that such tax incentives are necessary and do not detrimentally impact our city's financial condition, I would support such initiatives.

3. **Do you feel that a higher priority should be placed on addressing and solving the sanitary sewer, storm water and water quality problems in Fayette County before there is any further expansion of development beyond the current urban services area? Why or Why not?**

- Yes. We must ensure that our city has sufficient resources to build the necessary infrastructure to support future development. It is imperative that we protect our water supply and always ensure that we are conscious of the environmental impact on growth decisions.

4. **Fayette County agri-business and agri-tourism generate over \$3 billion dollars for the regional economy each year. Do you support these industries? If so, how will you promote agribusiness and agri-tourism if elected to office?**

- Yes. I will work with the leadership of the Kentucky Farm Bureau, Bluegrass Tomorrow, and other organizations to ensure that long-term viability of our agricultural industries.

5. **Fayette County currently has enough vacant land within the urban services area to support nine years of residential growth. Will you propose to use this available land to provide affordable housing, accessible transportation, and amenities for our growing community? If so, how?**

- Yes. It is my intention to work with our community planning entities to ensure that we wisely utilize the available land within the current urban services boundary.

As housing prices continue to rise in Fayette County, I want to ensure that we continue to increase the inventory of affordable housing.
